2. **Performers without Partners:** Teachers may register a performer without a partner.
 - Place the student in either the Primo or Secondo section to indicate which part you prefer to have your student play. Leave the other part blank.
 - The chairperson will confirm the part assignment. Note: For students registered without a partner, this may be changed from the part you preferred.
 - Parts are assigned as registrations are received.
 - It is recommended that you start teaching the music after you receive confirmation. The goal is to have even distribution of parts in each music selection.
